

# STATISTICS MINORS FOR NON-WHARTON STUDENTS

<https://statistics.wharton.upenn.edu/programs/undergraduate/statistics-minor/>

## Statistics Minor Declaration Process

Students must complete a Statistics **Minor Declaration Form** (on page 2) and upload and submit it through the Declare/Update Field of Study form on the following website:

<https://sfs.upenn.edu/registrar/forms>

If you have a good idea which courses you would like to take, then we encourage you to submit your Minor Declaration request for approval through the system.

Students are expected to carefully review the Minor requirement information available on our department's website. If you have unanswered questions, then you are encouraged to consult with your faculty advisor and the Statistics Minor Advisor, Professor Abraham Wyner (303 Academic Research Building, [ajw@wharton.upenn.edu](mailto:ajw@wharton.upenn.edu)).

Once you submit your Minor Declaration Form through the system, you will not be able to make changes through this system to your course plan after the declaration request has been approved. Instead if you have any concerns that the revised course schedule does not qualify for the Minor, then please e-mail Professor Wyner at [ajw@wharton.upenn.edu](mailto:ajw@wharton.upenn.edu) to double-check (no need to resubmit the form).

Please remember that all courses applied toward the Minor must be taken for a letter grade and cannot be taken on a pass/fail basis.

If you are a senior who is graduating at the end of the Spring semester, then you need to declare the minor by the end of the Fall semester.
